Subject: RE: Gateway Marina Stormwater Project - Dig Safe is marked

Hi Dale-

We called in DigSafe with the driller's information and the site cleared last week or the week before. I wanted to let you know that our driller confirmed with us yesterday that they could move up their schedule and will be out on site in the park for about a half day tomorrow. They are using small equipment so it shouldn't be much of a disruption but we wanted to let you know in case you have to notify any other entities.

Thanks,

Matt

Subject: Gateway Marina Stormwater Project - Dig Safe is marked

Hi Nick,

The area is marked for Dig Safe. We do not have the drill company information, so you will need to call Dig Safe.

Thanks and keep warm,
Dale

All marked per diagram, labeled TOB, I don't know the drill company name, so please let your contact obtain the permit number, thanks. Willy

Hi Willy,

Can you please mark for Dig Safe, as shown on the attached map in the area of South St. and Pleasant St. in Hyannis? If you are unable, just let me know if I can borrow some paint.

Thanks and keep warm,

Dale

Hi Dale,

We've contacted our driller and tentatively scheduled soil borings for the first week of December. Before we perform borings, we need to contact DigSafe at least 3 business days before we go to make sure we don't impact any utilities. Could you go out and mark the project area? See attached figure for approximate marking locations.

Please let me know if this is possible. Thanks.

Subject: Gateway Marina Stormwater Project - Requested Information

Hello Everyone,

Attached are the requested files for the Gateway Marina Stormwater Project;

S Stormwater mitigation watershed with GIS topo sheet,

S Section of FIRM Panel 0569J and GIS sheet with 12" contour highlighted.

We are working on information for the tanks next to the Museum.

Thank you,

Dale
